

# Public Engagement Network (PEN)

Supporting people whose voices aren't  
usually heard to engage with the Care  
Quality Commission (CQC)

## About us

We make sure everyone can share their views with the  
CQC to improve health and social care

PEN is a network of local and national community groups and organisations who support engagement between the CQC and the diverse range of people who use health and adult social care services in England.

Facilitated by Choice Support, our mission is to reach out to people whose voices and experiences we don't often hear, and those who are more likely to experience poor outcomes and inequalities.

### Join us

By joining our network, you'll help ensure that individuals from groups like yours can share their experiences and views on their local health and social care services. You will also contribute to the broader understanding of health and social care, highlighting inequalities on a local and national level in England.

We offer incentives, networking, and promotional opportunities to our members. To find out more, please visit our website, follow us on social media and contact us via phone or email – details below.
