COMMUNITY OF PRACTICE

Building traction for high quality strategic coproduction

1) To model coproduction as fun meaningful and inviting

2) To enhance the engagement of people with lived experience in coproduction work

3) To build the confidence and capacity for participating organisations to host good coproduction spaces

4) To build traction for the WTfC process as a core part of how coproduction is delivered across the region

5) To flex the process and the tools and techniques used within it to boost impact

6) To build a confident motivated and networked community of practice that can collaborate on joint projects

7) To deliver a set of tools that effectively supports those involved in the delivery of WTfC projects
